Measure, Appointment or Topic: SB1593

As a citizen of Oregon that loves the outdoors, this is vital legislation to pass to help the outdoor community. Guides and outfitters are economic drivers for sure, but more importantly, they do countless small acts for the general public that are not event clients or trip participants. Having these experts out in remote and special areas has a major impact and helps provide safety for visitors. Additionally, this take pressure off the public safety resources we have that are already stretched thin. Please fix this problem and support this bill.
