

Submitter: Greg White  
On Behalf Of:  
Committee: Joint Special Committee On Referendum Petition  
2026-302  
Measure, Appointment or SB1599  
Topic:

This attempt to circumvent the Initiative process is an egregious violation of the rights of every Citizen that signed the petition and and an attempt to violate our CONTRACT with our Constitution to bring this to a vote as we stipulated. We specifically signed the petition to place this issue on the same ballot where MORE people will be able to vote and see the names of those who sought to IGNORE the will of voters on the same ballot. We wanted not just primary voters-- but ALL who vote for the governor's position - and ALL of YOUR elected positions - to see ALL of this on the same ballot with your own names.

I will make a promise. Ya'll do this- I will be even MORE NOISY on every level I possibly can - local to national media to get everyone possible to vote this down.

I'm willing to bet - if you do this- It will only incite every person ALREADY UPSET to get even MORE vocal, more involved, more active to vote this down  
AND in exposing Oregon's fiscal malfeasance.

We are trying to hold the Oregon government accountable for it's fiscal Irresponsibility. Rather than continuing to attempt to increase taxes to cover up the fiscal malfeasance and supporting FAILED Ideological programs OVER NECESSARY SERVICES -- this move will indicate- y'all are doubling down on a failed strategy.

Please understand- if you all keep trying to circumvent Oregonians due process with these political manipulations to keep raising taxes - your malfeasance will not be forgotten.

It will be publicly exposed. Do you want to add THIS sadly obvious level of political brinksmanship??

Image what will be exposed when people like @ DataRepublican and other data miners like @DOGE - and so many more - run their searches on what you think won't be found. LOLOL game on!!

I'm gonna suggest ---There will be an #AuditOregon for every FEDERAL dollar. pretty sure--- It is already happening through private parties.

Ask yourself -- Could there be data miners digging into all aspects of Oregon's budget and fiscal malfeasance?

Could Every Federal penny of the 30% comprising Oregon's budget be scrutinized and made public?

Consider very carefully your attempt to obfuscate and play these silly OBVIOUS games to manipulate the election process.

I'd suggest It will all be exposed. Every penny.
