

Submitter:	Sandra Fox
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

I strongly urge you to support SB 1541 in every way you can so that Oregon's lands, waters and communities will be better protected from pollution, which harms health, quality of life and life itself. I am someone who suffers from heart arrhythmia and asthma, caused by pollution in Colorado, causing me to have to sell my home and move out of that state. I have finally found a healthier home in Oregon, where the people have always worked hard to preserve our pristine lands and waters, and to keep polluters from harming our communities. Please help to create the Climate Resilience Superfund.
