Measure, Appointment or SB1541
Topic:

Dear Chair Golden, Vice-chair Nash, and Members of the Committee,

Especially in light of severe cuts to federal disaster relief aid, Oregonians require support for maintaining a livable environment. Companies that produce ecological harm should be responsible for footing the bill. That's why I support the creation of the Climate Resilience Superfund, to hold polluters accountable by making the large, out-of-state fossil fuel companies pay their fair share.

I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.
