Measure, Appointment or Topic: SB1541

I am writing in support of SB 1541. We in Oregon have experienced extreme weather events caused in large part by climate change produced by the burning of fossil fuels. If you have been in any scouting program, you know your responsibility as a good citizen is to clean up your mess and leave the area you used in as good a shape, or better, than when you got there. How many times have corporations just walked away from the disasters they have created while leaving those of us who live here to pay for cleaning it up. This has to stop.
