Measure, Appointment or Topic:	SB1541

The short session was voted by the people and after having reviewed the measure this ACT does not qualify to be heard. The measure asked the voters of Oregon to allow the short session to reduce special sessions. That short sessions would be used to tweak the biennium budget if an agency requests or review bills passed during the recent long session if agencies report an issue.

Since the voters have approved a short session the state budget has doubled and we have more special sessions than we had before. Please follow federal laws stop making your own.
