Measure, Appointment or
Topic: SB1599

this strategy of taking advantage of the low voter turnout in the May primary election did not seem to be a concern when you were passing the rollback of the severance taxes on everyone that owned 5,000 acres or more of timber or when you wanted to pass the citizens united that made corporations people too. in order to allow them to make huge donations to political campaigns. suck it up! what's fair is fair. you're going to find as the timber industry folds there's not going to be as many people voting in favor of this crap. you need to look for other industries to provide living wages for the people in Douglas County.
