

Submitter: Fiona Day-Cofer
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or SB1541
Topic:

Dear Chair Golden, Vice-chair Nash, and members of the Committee,

I support the creation of the Climate Resilience Superfund, to hold polluters accountable by making the large out of state fossil fuel companies pay their fair share. Moreover, the cost of cleanup from climate change should not be shouldered by the people that reside in Oregon. It should be the responsibility of the companies that pollute our air, water, and contribute to climate change.

The people of Oregon and local governments have been footing the bill for too long. The fossil fuel industry makes profits while we suffer the consequences from climate change. As legislators you have the ability to shift costs from your constituents to the mega companies responsible. I urge you to pass SB 1541.
