

Submitter: Laurel Serdehely
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB1541

I support the creation of the Climate Resilience Superfund to hold polluters accountable by making the large, out-of-state fossil fuel companies pay their fair share because the companies responsible need to be held accountable. This bill is important to me because the environment I live in should be as healthy as possible and this is one way to help ensure we are doing everything we can to keep our environment as clean and healthy as we can. From massive wildfires to polluted water, communities across our state are effected by this climate crisis. The companies that pollute our environment need to help pay for the consequences; Oregonians should not be in this alone.

As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.
