

Submitter: Kim Larsen
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB1541

When you make a mess, you should clean it up. That's why I support the creation of the Climate Resilience Superfund, to hold polluters accountable by making the large, out-of-state fossil fuel companies pay their fair share.

This bill is important to me for many reasons, economic AND quality of life, which is one of the things I value most about living in Oregon. From wildfires to polluted water, we've seen communities across the state bear the brunt of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of us Oregonians and our local governments. We've been footing the bill while fossil fuel companies rake in the profits. That must end.

As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.

Thank you, Kim Larsen 2056 Charnelton Eugene OR 97405
