

Submitter:	Lars Jefferson
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

This bill is a terrible idea. This bill will kneecap all industry in Oregon by adding yet another fee to even operate in this state. There is no scalable technology available to get around this. Even electric cars put more carbon dioxide in the atmosphere in their creation than they offset with a lifetime of operation. Carbon neutral is bogus and scientifically illiterate. Finally the state mismanages the money it already has. I'm not giving it any more to waste on frivolous projects.
