

Submitter:	Dylan Mickey
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

Since I've lived in Oregon, I've watched our summers get hotter and smoke filled, our winters have almost no snow, our springs turning to droughts, and our fall practically turning into a second summer. Our state is dying and it will continue to die if we do not do something about it, and so its with pride that I support senate bill 1541 and any future bills that will contribute to the ecological restoration of our state, and holding those who let it get to this point accountable.
