

Submitter: Toni Morozumi
On Behalf Of:
Committee: Senate Committee On Natural Resources and Wildfire
Measure, Appointment or SB1541
Topic:

I am writing to support the creation of the Climate Resilience Superfund, at long last holding polluters accountable for the climate disaster that they have knowingly and deceptively perpetrated for decades. As we increasingly suffer the consequences of wildfires, intense air pollution, drought and risk of losing our homes or assurance of any financial recovery it is high time that the fossil fuel industry with their megaprofits start bearing their responsibility.

We are looking to you, our legislators, to defend the public you represent and fight to shift the costs from your constituents to these mega corporations. I urge you to passionately advocate for, and pass, SB 1541. Thank you.
