Measure, Appointment or Topic:	HB4085

I strongly oppose HB 4085. We do not need Flock cameras surveilling residents, and this concept is worse than that. I don't want to be surveilled 24/7/365, nor do I want my friends and family to be either. Further, these autonomous vehicles are still major safety hazards and have nearly no criminal liability when they damage people or property.

This is a bad bill and should not be allowed to proceed any further. Orwell's 1984 was supposed to be a warning, not a road map.
