Measure, Appointment or Topic: SB1541

I feel appalled that big companies can profit from the resources of our land but the cost of the pollution from the oil, gas, mining, or processing gets put on residents, especially in terms of sickness and poor health from contaminated air, water, and soil that even gets passed on to our children and grandchildren. This is unacceptable! Companies creating the waste must clean it up or pay for it to be cleaned up. Please, pass this bill.!
