Committee: Joint Special Committee On Referendum Petition  
2026-302  
Measure, Appointment or  
Topic: SB1599

I oppose the move to the May ballot, my signature on the petition was in support of being able to vote on this on the November ballot. This attempt to move it to the May ballot, is a deceitful move to silence the voices of over 250k taxpayers that signed to get this to the voters to begin with, and to get this on the November ballot. Forcing it to a ballot time that is other then what we signed supporting is aggrieved and shows complete disregard for your constituents desire of signing to have it on the November ballot. If you vote in support of moving it to the May ballot, you have completely disregarded the desire of every taxpayer that signed this petition and you should be VOTED OUT as you clearly do not care to represent the will of your constituents.

Leave this on the November ballot.
