The Oregon State budget has ballooned over the past years and further efforts to tax the citizens and businesses are driving hard working citizens and larger businesses from our state. The state Treasury has proven itself to be ineffective and willing to blindly waste funds for leftist pet-projects which do nothing for the people. Oregon should not be driven solely by the far-fetched ideals of places such as Portland, Salem and Eugene...the corruption of these locations and their specific politicians kowtow to the extremes and fail to recognize the reality of the working citizen.
