HB4018

At the time of this testimony, this bill "requires the Secretary of State to study Elections."

This is clearly a gut and stuff bill with the single public hearing on it held the second day of the legislative session so as to prevent any testimony or analysis of the bill by the public. Crafting such policies in back rooms is unbecoming of this Legislative body.

We don't need to study elections. We need to tighten up security and make voting in person again.

I oppose this bill.
