Committee: House Committee On Transportation  
Measure, Appointment or Topic: HB4085

I am writing to oppose House Bill 4085. A robust and nuanced debate can and should be had about how autonomous vehicles should be allowed and regulated in Oregon. However this bill prevents any such debate, by prohibiting local governments and policymakers from regulating them beyond being able to charge taxes and fees. Don't rush through this gift to tech companies in our short session when there are so many other crucial issues that we are having to deal with in our state, and don't take away local government's ability to decide how best to handle regulation in their cities. Thank you for your time.
