We are already drowning in taxes. Inflation is stifling. Stop just automatically hitting the people who pay your salary for solutions you already created. Figure out another way. There is always another way. We are taxed to death. It's just wrong what you're trying to do. Just wrong. Listen to the people. That's your job you are a public servant!!! And the public has spoken. At least the working ones who cannot take yet another ridiculous tax because of the current administrations total failure! I want to retire in 1.5 yrs. Your are making me work longer while you support illegal aliens who have not earned the right to be here and are a huge financial drain on the this state and country. While you try to push thru your agenda. While u just sit there and decide like a communist how Working people will just pay more. Simply because that's the easy way out for politicians. Find a solution without sticking to working people. The current Oregon administration is just criminal. No! No more. No tripling of the registrations, payroll taxes and gas tax.NO! The people have spoken. Do your job and figure it out.
