Measure, Appointment or HB4105  
Topic:

My wife and I own some private timberland and our sm rural communities and the timber mill that is employing people, they need to have a stable supply of raw logs to keep loggers and other workers employed. Holding the Oregon State Forestry Dept. accountable to produce timber to sell to bidders is a much needed option to stabilize the unstable market prices plaguing our timber industry. Thank you, Bill & Glenda Hales.
