

Submitter: JoAnna Wendel

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: SB1541

Oil companies have known for decades--DECADES--that their product causes global warming. They are complicit in the more frequent wildfires, the stronger hurricanes, the degradation of our irreplaceable wilderness and they are complicit in driving the extinction of countless species. Oil companies, natural gas companies, coal companies, any industry that willfully fills our air with greenhouse gases should be held accountable for damage wrought on our planet and in our state. Make polluters pay!
