

Submitter: Joseph DAmbrosia  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB1541

Hello,

When you make a mess, you should clean it up. That's why I support the creation of the Climate Resilience Superfund, to hold polluters accountable by making the large, out-of-state fossil fuel companies pay their fair share.

This bill is important to me because I value the natural world and cherish all the benefits it has given to over the years. Camping trips with my family, walks through the park, visits to the ocean. They each have an important impact and make me who I am today. Those things may not exist in the future due to human caused climate change. Please support this Bill!

From wildfires to polluted water, we've seen communities across the state bear the brunt of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of us Oregonians and our local governments. We've been footing the bill while fossil fuel companies rake in the profits. That must end.

As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.

Thank you for you hard work! We are counting on you!

Joseph D'Ambrosia
