Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

The proposal is unconstitutional and violates both legal and natural rights of freedom of choice, freedom of religion, to mention only two of many. The recent Covid scam and the resulting exposure of unlawful and immoral actions of public and private individuals is evidence of the reason this proposal should be quashed. The proposal is unlawful and never should have been proposed. Those who proposed it should retract the proposal and, if not, they should resign immediately as they are clearly working against the natural and Constitutional rights of those they are supposed to serve!
