SB1598

Right to Medical Freedom-14th Amendment to the Constitution

The right to medical freedom in the United States is primarily derived from the Fourteenth Amendment. This amendment includes the Due Process Clause, which has been interpreted by the Supreme Court to protect an individual's right to make decisions about THEIR OWN medical care. There must be NO question and surely no law written by any legislator that is in violation of the 14th amendment. You should have learned from Covid that mandates for health care are illegal and there should NEVER have been a mandate to get that bioweapon called a covid shot. I ABSOLUTELY OPPOSE SB1598. IT'S UNCONSTITUTIONAL!!!!
