Resources, and Water
Measure, Appointment or Topic: HB4153

I support HB4153. It creates diversification and opens up our community to experience the results of farmers hard work and dedication to their profession. Let the farmers do what they do best, grow and sell farm goods.

Whether it be a farm stand or farm store,. nobody knows their crops and farm products better than the people and families who work tirelessly to bring us the consumer, the results of their hard work.

We need to support these fine people, who defend their daily routines, unselfishly, for the betterment of the communities they live in.

Get off their backs, let farmers do what they do best. Stop the derillick regulation just to justify someone's position in the legislature. We have too many regulations and legislation. Why? For the betterment of our local family farms? No, It's just to qualify someone's job description so the state can drain our swamp.
