Committee:

House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or
Topic: HB4105

I urge the passage of HB 4105. It's essential for the welfare of rural communities that depend on the forest products industry; the counties that are owed timber receipts from state forest lands; and to maintain a robust workforce and industry infrastructure to actively manage the state's forest resources. It does not legislate an increase in timber harvests. It simply provides assurances that the state will deliver the products and services stated in approved plans.
