

**I am writing in opposition to the crooked state legislatures trying to change the referendum from the November ballot to the may ballot. I signed the referendum with the knowledge that it would be on the November ballot which it should stay that is what is on those pages we submitted to the state. Why is it you legislators think you get to decide everything for us that is why we had the referendum in the first place. Since all you want to do is tax us citizens out of this state. Why don't you start listening to us Oregon residents and stop trying to tell us what to do!**
