This would absolutely ruin the state of Oregon. Taking away personal/individual choice from my perspective is criminal. We would have to move immediately and if our home did not sell in time, we would have to leave anyway. The thought of being forced into submission regarding MY body is just about 'insane.' The covid shot wasn't enough proof evidently even though there has been so many instances of its negative effects.

PLEASE, wake up! This is a definite NO vote here. I'm 85 years old but I'd get out of here as quickly as possible and my husband too. Oregon's reputation is not that great now but this would totally destroy it.

People who think this way can not usually hear me. All I can do is shake my head and pray. OMG! How did we get here. This bill is pitiful...
