Dear Committee Members,

Please vote no on Petition 2026-302. It is a well-known fact that a large percentage of the voters of Oregon do not vote in the primary election.

To be fair to the voters, you should allow the referendum on the gas tax to be voted on by as large majority of people living in Oregon as possible. Why would the Governor want this Referendum vote to happen in May? It is becoming very blatant she and many Democrat congressmen do not want the People to have a say even though they claim to represent their wishes. It is more than disheartening and sad when these extremes are being taken. Let the People have their desires met by their government.
