

To whom it may concern,

I oppose SB 1599. We can NOT afford more taxes in Oregon. We must live on a budget, so should our Oregon government. The solution is not always more taxes, more taxes, more taxes. Especially because our Oregon governor is not transparent in her spending. I do not agree with her "pet" projects. She needs to start working for the Oregon people, taxpayers, working class people who work hard for their money. There is plenty of money already obtained in taxes to cover ANY financial need in our Oregon government.

Oregonians have already spoke several times that we DO NOT WANT MORE TAXES!! But our Governor & her government do not listen. They continually disrespect the people they work for with their own selfish motives.

Moving a voter-approved tax referendum from November to a low-turnout May election is wrong and manipulation. Oregonians like me signed this petition expecting a November vote, and the Legislature should not change the rules midstream to accommodate Governor Kotek.

Let the People vote when participation is highest, especially IF Governor Kotek and the liberals in office have nothing to worry about in being re-elected.

Please do not allow SB 1599 to be moved to the May election. Oregonians deserve to vote on it in November!!

Very sincerely,
