Dear Governor Koteck,

Pushing SB 1599 through the system to fast Track your \$4.3 Billion Dollar gas tax from the November Ballot to the May Ballot is unacceptable! You do not need to spend more tax payer dollars to created a Special Joint Committee to FAST TRACK your bill through the process! You are already aware that the majority of us do not want this added tax nor can we afford it. You keep passing taxes and using the money for the less fortunate but you are making us the new less fortunate. I respectfully suggest that instead of raising tax on gas you reduce the amount of money (tax payer dollars) that you are spending for healthcare for noncitizens.

Protect the working glass and do not raise taxes!

Respectfully,

Teresa Feiereisen-Kilroy
