It is disappointing to see our leadership try to subvert the people that they are meant to serve.

Bearing witness to the individuals in charge attempting to shift a referendum, that is legally required to be held in the November elections, to an earlier date just to try and sneak it past the electorate and save face later over what damage this will cause. These actions are pathetic and the thinking of those who know what they are doing is against the will of the people, but lets ignore them and push on becuse we know best...

This from the party that would champion a woman's right to choose and yet deny them a voice in this bill at the appropriate time in a decision that would see the financial ruination of many. Accounability is a word that has no presence it would seem, along with Integrity.

The leadership have designed a proposal to meet their own ends with money from Tax payers. How about we let this bill die in peace and start again but looking at all the money that has been spent and see if it has been used wisely first.
