

Submitter:

Dee Tvedt

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

This bill undermines our rights as individuals to make decisions about our health and our bodily autonomy. We, the Oregon people must have the right to make our own health decision. Additionally, vaccine requirements need to be an individual's or parental choice, not the choice of our state. Oregonian's access to schools needs to be disconnected from vaccine requirements.

Statewide one-size-fits-all medical orders without individual consent have no place in our state. We are individuals and need to maintain our rights as citizens to make our own healthcare decisions. One-size-fits-all has no place in Oregon.

Mandates of any kind are unacceptable. Each person, family, parents needs to be able to make their own, informed decisions. No Mandates.

This bill seems to override Doctors: Removes ability of doctors to make decisions in the best interest of their patients. If that is the case, it needs to be defeated.
