On Behalf Of:  
Committee: Joint Special Committee On Referendum Petition  
2026-302  
Measure, Appointment or  
Topic: SB1599

I Richard Foote oppose the current legislative efforts towards putting the this SB1599 on the May 2026 Ballot.

Please allow the voice of your citizens to be heard instead of constantly ignoring or discarding it.

I am disappointed in our elected officials going against your hard working voters efforts to prevent the ever imposing and increasing Tax Burden that our Democratic lead Senate feels they need instead of being fiscally responsible. I hope that you will be ashamed in you your political tactics and follow what voters want and expect, to include thousands of democrats.

Put the Bill on the November Ballot and work with Republican members to create a currently balanced and fiscally responsible bill that involves cutting low priority programs. You couldn't listen to us the first time, and apparently not the second time with this effort, maybe you can listen the third time and just do what voters have asked in the most plainly way possible by our overwhelming petition to certain members that are deaf to our desires even when that is your most sacred responsibility.
