

Oregon Legislature

We The people of Oregon are sick and tired of the corrupt politicians in this state. The governor and the democratic legislative representatives are who I am referring to. You were elected to represent the people of this state and your districts and you have failed miserably.

The citizens of this state have spoken regarding the outrageous gas tax that was not out before the voters. We gather the signatures to put thus on the ballot so the people can vote on it. Now you're trying yet another sneaky underhanded trick. WE HAVE HAD ENOUGH! I strongly oppose moving the vote on the gas tax. You are not above the law and you will all reap what you have sown.
