

Submitter: Charles Stephens

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

This bill is not only unconstitutional, but ignores the rapidly growing exposure of the inexcusable transgressions of the public health authorities since 2020 - going on right now. As such, this legislation will be a litigation magnet. And people like me will help fund that litigation. The vaccine gig's up. The racket's over. You're whipping a dead horse. And perhaps some of those with a whip in their hand will be held to account. The doctor/patient relationship is sacred, and informed consent - of the individual or parent, is the law.
