

Submitter: Alaina Shivley

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

To whom it may concern,

I oppose SB 1598 for the reasons listed below:

It grants broad power to unelected public health officials to make decisions affecting all of us, without further legislation or public debate.

It clears the way for vaccine requirements to affect access to schools, without another legislative vote.

It invokes statewide one-size-fits-all medical orders without individual medical consideration or consent.

It compels insurance companies and taxpayer-supported public programs to pay in full for vaccines and health services.

It removes the ability of doctors to make decisions in the best interest of their patients.

Thank you for ensuring SB 1598 gets thrown out for the greater good of your constituents.
