

Submitter:

TJ DeLorio

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

There are so many barriers to care and prevention, this bill would help take some of those away. My family has an immune compromised person who lives with us and it is important for all of us to have access to preventative care especially vaccines in order to protect the most vulnerable people that we live with and come into contact with. Please do the right thing and pass this bill
