Measure, Appointment or Topic:

SB1598

As an immunocompromised person who works in a public college, the Novavax Covid 19 vaccine has been a literal lifesaver for me. However, accessing this vaccine this past year was difficult and put undue stress and anxiety on my plate as I had to figure out how I could access it. Please make sure we are all able to access vaccines with insurance coverage easily— it is the right thing to do for public health and especially for medically fragile folks in Oregon. Thank you.
