

Submitter: Sara Fancey  
On Behalf Of:  
Committee: Senate Committee On Health Care  
Measure, Appointment or Topic: SB1598

My family and I struggled to navigate the changing federal guidelines last fall as we attempted to get our updated COVID vaccines. My doctor's office could not tell me if there would be an additional cost and initially thought there might be an out-of-pocket cost of up to \$200 per vaccine. We are a family of four. We delayed getting our immunizations until later in the fall, past when I was comfortable, because of this confusion.

We need SB 1598 so that families can have a clear understanding and broad access to vaccines. Please pass SB 1598 now.
