

Submitter:

McKenzie Nix

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

I have two school-aged children and already had trouble finding a provider to administer their vaccines when we first moved to Oregon. As federal recommendations go haywire, I have had trouble figuring out how to get my kids' vaccines, like their updated COVID vaccine, and have been confused about what will or won't be covered by insurance. Our family is already dealing with the increased costs of living; we can't afford to pay hundreds of dollars out of pocket for vaccines that protect our kids from dangerous diseases. I will rest easy if this bill passes, knowing that vaccine coverage will be aligned with the recommendations coming from my doctor. Please pass Senate Bill 1598.
