

Submitter: Paige Fisher

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

No more government overreach. Look at how the covid fiasco happened and then the truth began to come out. We don't need another fiasco. It's time to learn from the mistakes, not create more.

Medical decisions should remain between a patient and their doctor. They should not be mandated or expanded through state authority. One size fits all policies fail to account for individuals medical history , risks, or informed consent.

Public trust in medicine is built through transparency and choice, not coercion. This bill is a government overreach that will cause harm. I strongly urge you to oppose this bill.

Thank you
