

Submitter: Sally Klein  
On Behalf Of: RJKjr Aaron Siri Bigtree's work  
Committee: Senate Committee On Health Care  
Measure, Appointment or Topic: SB1598  
Committee Members ,

I can't even believe my eyes. SB 1598. The asylum continues being run by the inmates.

Oregon politicians, robot government camp "educators," medical corporals, and others of the same ilk are about to try and go down the tyranny path yet again. They think we've all gone back to sleep. And the Bill will be given the Ra Ra Ra by Oregon's legacy media no doubt.

Medical freedom, once again on the precipice in Oregon. The state that helped deliver Antifa to America (fascist in disguise) and is ironically full of the same vim and rigor in the halls of Salem's Marble Nuthouse is trying to pull the wool over its citizens, next version up .

With all the same kind of contrived verbiage to convince and frighten people into compliance. And comply they do. Just watch the lone traveller in their car, or biker on a sunny day ride by, alone ... masked. How buried can one be with indoctrination to think that action is helping themselves. It's not just about vaccines to the elite. It goes deeper. Much deeper.

Nothing learned, Nothing changed. These greedy and power hungry entities sat in their tax paid for offices or corporate towers and have bided their time. Waiting like a snake in the grass, here they come again.

Truth and facts now quite findable in the aftermath of Covid madness, conveniently ignored. Can't make money over non compliance can they.

The list of truths, worldwide findings, and court testimonies of the atrocities of all that this Bill's sponsors find so easy to ignore should be considered. Rather, required reading.

Bobby Kennedy wrote a book called The Real Anthony Fauci that stands in heroic testimony. Aaron Siri has done an incredible job with court litigation on the so called science and it must not be ignored by legislators. The perpetrators, so called scientists and researchers producing misinformation can be seen on video. Easy to find and listen to if one wants to know, or wants the public to know.

This Bill is tyranny born again. These people do not believe in a balance. I'm still

reeling from seeing it even under consideration. The state of Oregon's Democrat Socialists actually want to duplicate the whole nightmare that we already had to live through via their willful ignorance.

No. A resounding NO to SB 1598. Sad irony that the next Bill number in line, SB1599 is all about Democrats trying to pull the wool over the voters eyes. Action taken by politicians who don't give one iota of respect to The People. Go and read that one if you've missed it. The "Governor" was doing her best to hide it from us. It didn't work. I bump into people every day that have heard about it if asked. We know Tina. And we are telling everyone.

If nothing else, learn about the history of vaccine "testing." Find out about what has been mob ruled and subterfuged into your bodies by so called "science." You want to know. Even if you don't think you do.

If after reading this information, you still want to put these products into your bloodstream, fine. I'll weep for your children. But don't try and force or corner others into injecting the stuff into their bodies.

Do not do this to Oregon again. And if you have taken monies from Big Pharma, or other vaccine profit makers, please have the decency to excuse yourself from being a sponsor. You know who you are.
