SB 1598 violates certain medical freedoms and decisions. How dare you once again make another bill to take medical rights from individuals. We have voted before against this and yet here we are again and again. Why we pay officials for the state of Oregon to make many more repeated and unnecessary bills mixed with several agendas at once is beyond me. Worst of all you have the public tax dollars and the already overpriced insurance companies paying for mandating one size fits all vaccines schedules and other health services. SB 1598 restricts access to schools because of vaccine mandates and limits doctors from making the best decisions for their patients with policy limitations instead of the best treatments. In closing how is there no opposing statement to this is negative, redundant bill?
