Committee:	Joint Special Committee On Referendum Petition 2026-302
Measure, Appointment or Topic:	SB1599

The referendum referred the issue to the November ballot, not the May ballot, and that was the condition under which everyone who put their signature down believed would be the case. Significantly more people vote during a general election than a primary election, and those who are for this referendum want as many people as possible to vote on it. Trying to change it to a lower turnout election is simply dirty Democrat politics. It's voter suppression and it's taking away the will of the people. Vote NO on SB1599.
