Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

I oppose this bill because I believe the only people who should be involved in making decisions regarding any kind of vaccines or other health care decisions is the patient and their medical provider. It is too complicated of an issue and needs to take personal factors into consideration instead of some blanket policy that forces treatments onto someone who may not want it, is low risk, or has underlying factors that make such treatments even more dangerous. We have the right to make our own decisions....not some bureaucrat.
