

Submitter:

Catherine Patty

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

We need broad vaccine access for all vaccines in Oregon, not just COVID. Please support this measure and promote access for all. Stand behind science! Stand behind research. I have parents that are immune compromised and my kids go over to their house often. We need to protect my parents from the kids. Support Oregon residents and pass this measure so it's easier to maintain public health measures that are backed by science, not myth.
