

Submitter: Wade Hoon
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598

We have seen the fallout from the Covid 19 shots. Actuarial death rates skyrocketing across all age groups and especially younger people, while Moderna (who had never previously brought a drug to market), Pfizer, and AstraZeneca have made the biggest profits of their lives. Now the state of Oregon is going to mandate these same toxins on innocent children. The results are in: the Amish people, who do not vaccinate, do not suffer from any of the modern diseases that our children do; ADD, ADHD, autoimmune disorders, myocarditis in younger populations.

Please tell me how aluminum, formaldehyde, thimerisol, Polysorbate 80, gelatin and foreign yeast proteins are going to make any of us healthy?

These are not essential nutrients. These are poisons directly injected into the blood stream, so the body has no ability to use it's other defenses first. How does normal bacteria enter the body? Nose, mouth, skin, where the tonsils and all other parts of the immune system can work quickly to get rid of the bacteria.

This is gross overreach of the government on our health. I urge you to reject these draconian laws and let people work with their doctors to decide what is best for their health and the health of their children, society's future.

Thank you.
