This is just ridiculous. Governor Kotek is disregarding the will of the people in her state. We obviously disagree with her positions and finally stepped up to put it on the ballot in November. She did her level best to shorten our time frame for getting the required signatures to no avail and now since she failed in stopping us, she is doing her level best to put this issue on a much smaller election ballot. She is evil and doesn't represent the majority of our people. She needs to go away as quick or quicker than this Referendum.
